DisplayPort to DVI-D cable

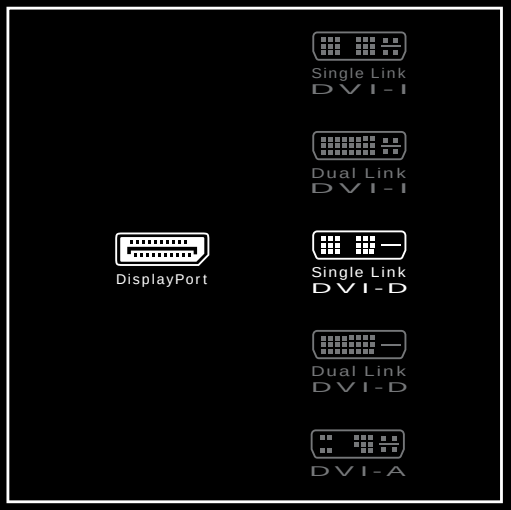
Club 3D UltraAV DisplayPort to DVI-D (Digital) cable enables the connection of your DisplayPort supported computer to a DVI-D supported television, monitor or projector. Simply connect the DisplayPort (male) end of the connector to your computer and plug your existing DVI-D cable from the display into the DVI (female) adapter. Setup is complete, no software installation required. The circuitry built into the adapter seamlessly converts the DisplayPort's video signal into a DVI digital video signal, requiring no external power.

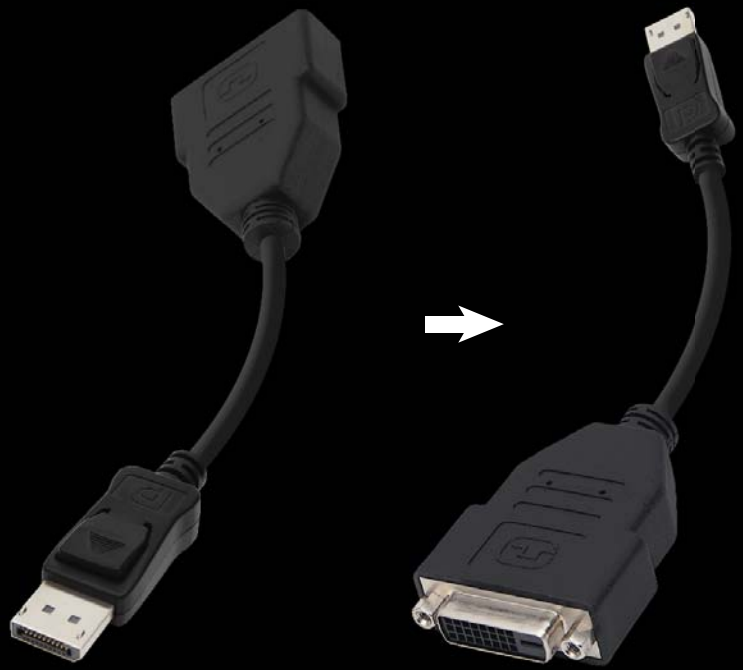
Connector 1
DisplayPort Male

Connector 2
DVI-D Single Link Female

Compatibility
Club 3D graphics cards with DisplayPort output or any DisplayPort compatible device.

Connections





DisplayPort

DVI-D Single Link
